Work Experience

Where I've Worked

NIU DoIT

NIU DoIT

As a student worker at NIU DoIT, I was responsible for managing the university's internal network and ensuring that all systems were up and running. I also provided technical support to faculty and staff, and I was involved in the planning and implementation of new technology projects. This experience gave me a strong foundation in IT and helped me develop my problem-solving and communication skills.

European Cuisine LLC

European Cuisine LLC

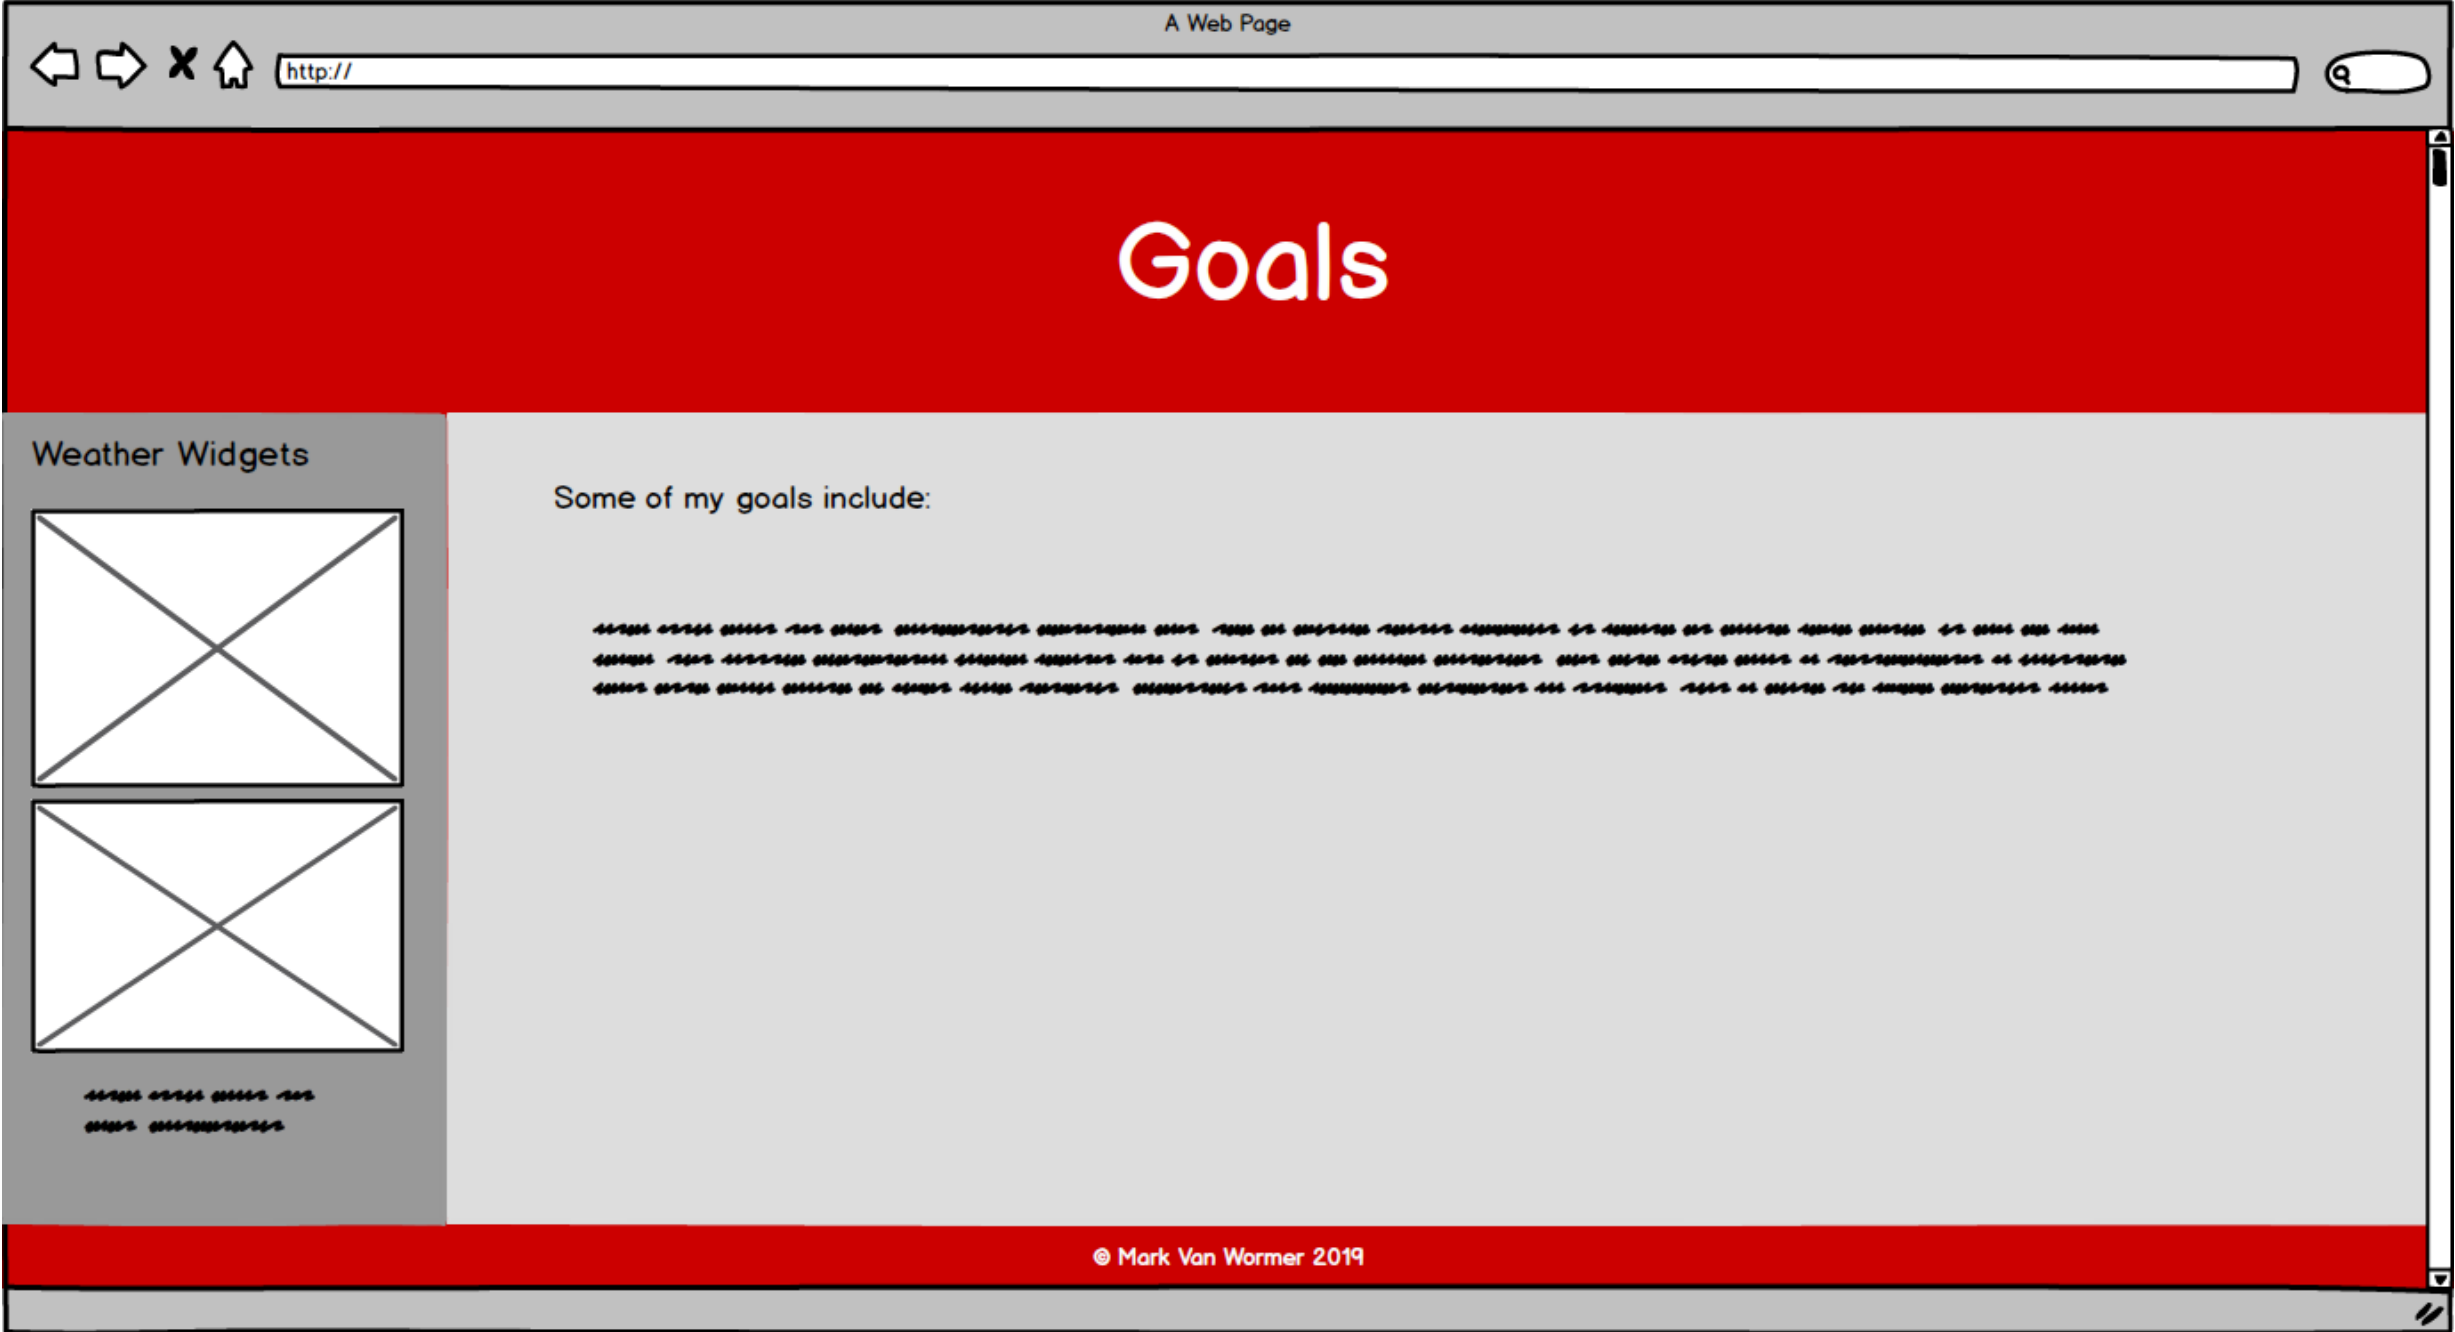

As a server at European Cuisine LLC, I was responsible for providing excellent customer service and ensuring that all guests had a great dining experience. I also helped with food and beverage preparation, and I was involved in the planning and implementation of new menu items. This experience helped me develop my interpersonal skills and gave me a strong understanding of the restaurant industry.

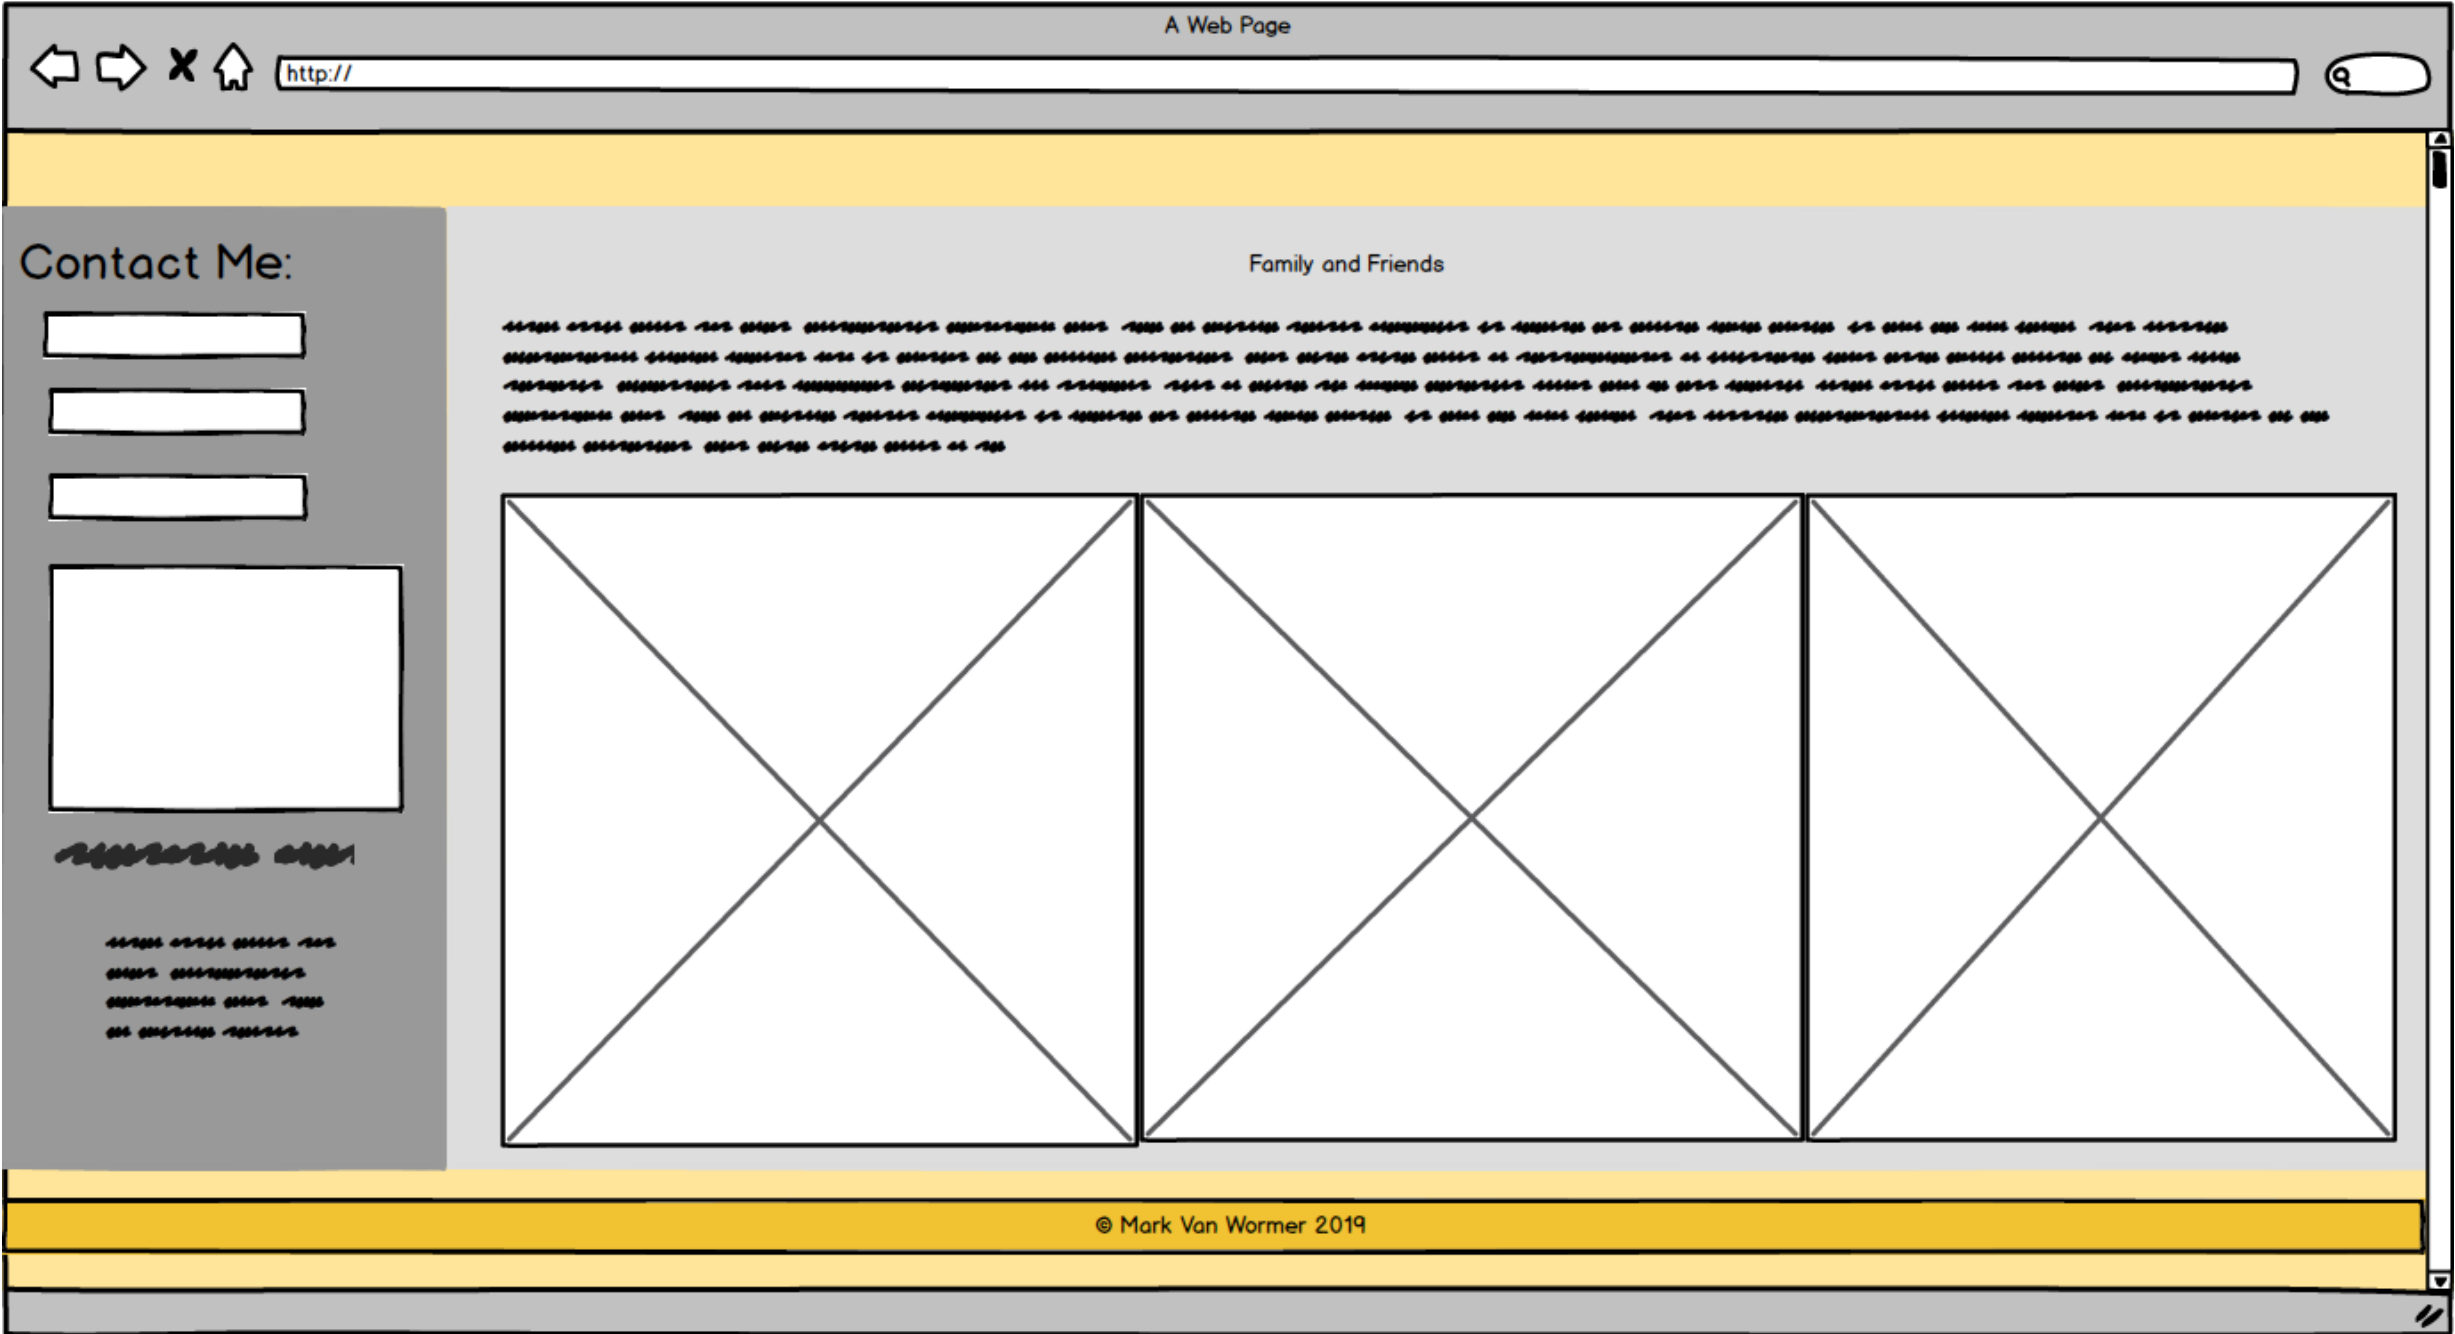

Quotes

"As a student worker at NIU DoIT, I was responsible for managing the university's internal network and ensuring that all systems were up and running. I also provided technical support to faculty and staff, and I was involved in the planning and implementation of new technology projects. This experience gave me a strong foundation in IT and helped me develop my problem-solving and communication skills."
